# Chiefs Message:

Dear Residents of Los Lunas,

As Chief of Police, I am pleased to report that 2024 has been another successful year for the Los Lunas Police Department. Our dedicated officers and staff have worked tirelessly to serve and protect our growing community, and I am proud of their accomplishments.

This year, we celebrated the graduation of two police officers from the New Mexico Department of Public Safety (NM DPS) Academy. Additionally, we welcomed two new uncertified officers who will be attending the NM DPS Academy in 2025. These additions to our department ensure that we continue to strengthen our team and provide the highest level of service to our residents.

Community engagement remains a top priority, and we have had the privilege of hosting many successful events throughout the year. The most significant of these was our National Night Out, which brought together residents, businesses, and law enforcement in a shared commitment to safety and partnership. Events like these are a testament to the strong relationship between our department and the community we serve.

The Los Lunas Police Department continues to handle the highest call volume of all agencies within Valencia County. This demand reflects the steady growth of our community and reinforces our commitment to meeting the evolving needs of our residents.

Perhaps one of our most significant achievements in 2024 was earning re-accreditation for the Los Lunas Police Department. Accreditation is a rigorous process that ensures our department meets and maintains the highest standards of professionalism, accountability, and operational excellence. It is a critical measure of our commitment to continuous improvement and best practices in law enforcement. This achievement would not have been possible without the dedication and hard work of our Professional Standards Lieutenant, Jonathan Norris. His leadership and attention to detail were instrumental in our successful re-accreditation process, and I extend my sincere gratitude and congratulations to him for this accomplishment.

I also want to take this opportunity to express my appreciation for the unwavering support of our community. Your trust and partnership are invaluable in our mission to keep Los Lunas safe. Lastly, to the hardworking men and women of the Los Lunas Police Department—thank you. Your dedication, professionalism, and commitment to public safety do not go unnoticed, and I am honored to serve alongside you.

We look forward to another successful year in 2025 as we continue to build relationships, solve problems, and make a difference.

Sincerely,

Frank Lucero  
Chief of Police

# RESPONSE TO RESISTANCE

The use of force by a police officer is an extremely sensitive issue and requires careful study and understanding by every officer. Although the careful use of force is authorized by law, the use of unnecessary or unreasonable force is strictly prohibited and is not tolerated.

The Los Lunas Police Department's response to resistance policy permits officers to use only reasonable force necessary to effect lawful objectives in responding to perceived threats. Each time an officer with LLPD uses force, a supervisor will conduct an extensive review of the facts and circumstances surrounding the incident.

# Citizen Complaints

The Los Lunas Police Department takes all complaints against our members seriously. The public has a right to expect and demand fair and impartial law enforcement services. In providing these services, department employees must be free to exercise their best judgment and to initiate action in a reasonable, lawful, and impartial manner, without fear of reprisal. While the mutual rights of the public and the police officer are normally respected, situations may arise when these rights are reported to be violated. To protect the rights of the public and our employees, allegations of misconduct must be thoroughly investigated. Outcomes of citizen complaint investigations are classified as:

- Exonerated - The behavior in question was proper in all terms of applicable law and department directive requirements.
- Not Sustained - Insufficient evidence either to properly prove or disprove the allegation(s).
- Sustained - The allegations are supported by sufficient evidence.
- Unfounded - The allegations, upon investigation, are determined to be without merit.
- Sustained violation not based on the original complaint - Where the investigation determines, by a preponderance of the evidence, that misconduct did occur that was not alleged in the original complaint but that was discovered during the misconduct investigation.
- Mediation - A meeting between the accused officer, the complainant, and the officer's supervisor.
- Administratively closed - Where the policy violations are minor, the allegations are duplicative, or an investigation cannot be conducted because of a lack of information in the complaint.
- Policy Failure - Where the complaint revealed a policy failure. The allegation is factual, and the LEO(s) followed proper agency procedure; however, that procedure has proven to be deficient.

# DRONE UNIT 2024

- A remarkable 400 live and training missions have taken flight since the dawn of October 2023, showcasing the program's rapid growth and effectiveness in real-world scenarios.
- In mere moments, an aerial overview of a crime scene or search area can be unveiled, significantly enhancing situational awareness for law enforcement personnel on the ground.
- This program has successfully and swiftly apprehended multiple fleeing offenders, ensuring safety for both officers and the community by providing real-time surveillance and tracking capabilities.
- The LLPD now extends its wings, offering accredited sUAS (small Unmanned Aircraft Systems) classes to fellow Law Enforcement Agencies across the state, fostering collaboration and enhancing the skills of law enforcement personnel statewide.
- Presently, 7 sUAS devices soar through the skies, supporting Patrol, Criminal Investigations, and the Tactical Team, which allows for diverse applications ranging from routine surveillance to critical incident response.
- All pilots are certified by both the LLPD and the Federal Aviation Administration, ensuring that they adhere to the highest standards of safety and operational competency.
- There have been 3 crashes, resulting solely in damage to the devices, underlining the importance of continuous training and adherence to safety protocols to mitigate risks.
- Plans are afoot to acquire more aircraft to bolster operations during the regular functions of the LLPD, aiming to improve coverage and response times in various situations.
- A commendable record of 0 complaints emphasizes the professionalism and effectiveness of the drone program, reflecting positively on the LLPD's commitment to community engagement and safety.
- The integration of drone technology has not only increased operational efficiency but also serves as a valuable tool for data collection and analysis, aiding in evidence gathering and case resolution.
- Future objectives include expanding the range of drone applications, such as search and rescue operations, disaster response, and community outreach initiatives, to further enhance public safety and trust.
