

March 10, 2009

Dear Editor

The Los Lunas Fire Department would like to inform the Village residents that we are experiencing a high fire danger due to low humidity, windy and dry conditions. Village residents **MUST** have a burn permit when burning within the village limits also starting immediately they **MUST** contact Valencia county dispatch non emergency number at 865-2039 before each burn to confirm whether it is an approved burn day in the village.

The permits can be obtained at the Los Lunas Fire Department Monday thru Friday 8am to 5pm. The permits are free and are valid for two (2) weeks from the date requested. The burn permit states the times, material allowed, and other conditions pertaining to burning. The Los Lunas Fire Department will be patrolling the village to make sure the residents are burning safely and have a valid permit and have contacted dispatch.

If you are found burning with no burn permit you can be cited. You can call the fire department at 866-2116 if you have any questions.
